

CISA REGION 10 MONTHLY WATER SECTOR CYBERSECURITY WEBINARS

HOW TO SIGN UP FOR WEEKLY CYBER HYGIENE SCANS AND PERFORM A SELF ASSESSMENT

The webinar is crucial for critical infrastructure owners, operators, and representatives in preparing for a potential “entity notification” and helping the nation get ahead of the water sector cyber threats.

EACH WEBINAR WILL PROVIDE:

- An introduction of key federal, state, and local partners who work jointly with CISA to help complete cybersecurity self-assessment.
- The Cyber Security Evaluation Tool (CSET) provides a systematic, disciplined, and repeatable approach for evaluating an organization’s security posture. CSET is a desktop software tool that guides asset owners and operators through a step-by-step process to evaluate industrial control system (ICS).
- Live Demonstration of the Readiness Ransomware Assessment and Cybersecurity Performance Goals Assessment.
- Discussion on the Incident Management Review process and how to complete multiple self-assessments.
- Real world cyber insights from CISA security advisors.
- An interactive Q&A session to address your state specific and general questions for CISA Region 10.
